

# DCACP SPRING INSTITUTE

## COLLABORATIVE IMMERSION EXPERIENCE

Join us for a hands-on training experience designed for collaborative professionals who want to sharpen their skills, deepen their confidence, and expand their collaborative caseload. This intensive program allows attendees to work with hypothetical clients in a team experience throughout the day and blends real-life simulations with opportunities for feedback with peers and coaching by seasoned facilitators. You'll practice the communication, conflict-resolution, and case-management techniques that nurture successful collaborative cases—all in a supportive, energizing, and fun environment. Whether you're new to the field or seeking to elevate your practice, this program helps you deepen your expertise and grow your collaborative practice.

**FRIDAY, APRIL 17, 2026**
